The successful candidate will be based in our main office at Sint-Stevens-Woluwe (Brussels Area).

The position is in the System Administration Team (Systems Department), that is responsible for performing hardware and software infrastructure support in a proactive way.

The candidate will mainly report to the System Administration Team Lead.

Tasks and Responsibilities

The candidate will support the IT Administration Team in different areas, amongst others:

- Assisting with Users Help Desk, System and Network Administration tasks
- Doing IT inventory
- Managing Intranet portal content
- Documenting procedures.

Qualifications and Experience

- Enrolment in second/third year of Computer Sciences studies or equivalent
- Knowledge of or experience with:
 - Linux / Windows Systems
 - Plone / Apache / Nginx / MySQL / LDAP/AD / DNS/BIND / Samba / RADIUS
 - LAN / WAN / VPN (networking infrastructures).

Candidates will have the following skills

- A self-starter mindset
- A mature and responsible mentality
- A proactive attitude
- Ability to adhere to strict standards of confidentiality
- Intermediate written and spoken English.

What Do We Offer?

- An experience in a growing international company in Space industry, with offices located in Belgium, Germany, the Netherlands and the USA
- A professional, pleasant atmosphere with motivated and passionate staff, where autonomy and initiatives are encouraged.

Preference will be given to candidates eligible to work in the European Union.

We are looking for someone to start **as soon as possible and/or during summertime.**
